

Getting Organized

Use folders to organize notepads and keyboards on the home page. Instructions related to notepads and keyboards are the same for this section.

Create a folder: Touch and hold the notepad, then drag it on top of another.

Open a folder: Tap the folder.

Close a folder: Tap outside the folder.

Add a notepad to a folder: Touch and hold the notepad, then drag it onto the folder.

Remove a notepad from a folder: Touch and hold the notepad, then drag it out of the folder.

Delete a folder: Move all notepads out of the folder. The folder is automatically deleted.

Rename a folder, notepad or keyboard: Tap the name field and enter a new one.

Place notepads in a specific order in the folder: Tap the name field. Place numbers in front of the names, or name the notepads alphabetically.

Copying a Notepad: Tap , then select the notepad, tap  . Tap DONE.

Deleting a Notepad: Tap , then select the notepad, tap  . Tap DONE.
